**NECA contractors offer project solutions with a skill level that is unmatched in the industry.**

Consistent performance comes only from a highly trained workforce. Through our apprenticeship programs, educators offer state-of-the-art training in all areas of electrical construction. A combination of on-the-job training (earning while you learn) and detailed classroom instruction, fosters a workforce unsurpassed in the electrical industry.

Trust your work to a contractor having the most qualified workforce in the industry....hire a NECA Contractor!
